

Polymaster, Inc. Guarantee

Polymaster, Inc. warrants that Polymaster RetroFoam and Plastic Foamed-In-Place Insulation components shall be Free of Defects when received by our Certified Applicator. The resulting application, when performed by a Polymaster Certified Applicator/Contractor, in accordance with approved procedures, will result in a finished product that will meet the published designed values.

Limited Warranty: Polymaster does not control or supervise the installation of these products, therefore Polymaster limits its' warranty to the performance of the materials themselves, and does not include installation and/or performance of the applicator.

Polymaster stands behind its product in the finished state in place provided that the installation meets the above Criterion and a Certified Applicator/Contractor has followed the instructions for application accurately. Customer Satisfaction in the finished product is our Goal.

This warranty replaces and voids any other and serves to support Polymaster, Inc., its Distributors, Applicators, Specifiers, Customers, and End-Users.
